EDUCATION

The University of Arizona

Masters in Science, Data Science

Tucson, AZ

Jan. 2024 – Dec. 2025

Savitribai Phule Pune University

Bachelor of Engineering, Computer

Pune, India

Aug. 2017 – May 2021

PROFESSIONAL EXPERIENCE

Cognizant Technology Solutions

Sept. 2021 – Jan. 2024

Full Stack Engineer

Remote

- Spearheaded performance improvements by optimizing SQL queries and caching, reducing load times by 25%.
- Designed and launched a key product feature that improved customer satisfaction by 20%, and revamped UI/UX to boost engagement by 15%.
- Developed interactive data visualizations and dashboards in Angular, enabling stakeholders to explore key business and operational KPIs.
- Developed scalable microservices using Java and Spring Boot, with backend deployment on AWS and robust database management.
- Created a Python-based PDF label validator, saving \$1600 in annual manual effort, and collaborated across Agile teams for iterative development.
- **Skills:** Java, Spring Boot, Unit Testing, Angular, Python, AWS, SQL, Microservices, UI/UX, Performance Optimization, Problem Solving, Data Analytics & Visualization, Docker, Agile, Cross-functional Collaboration.

Clothing Store Billing and Management System – Local Retail Client

Jan. 2023 – Jan. 2024

Freelance Android Developer

Remote

- Developed a full-featured Android app to manage invoices, sales, and staff for a clothing store with 1,000+ monthly transactions.
- Designed sales dashboards with charts to track daily revenue, top-selling items, and seasonal trends.
- Implemented barcode-based billing to automate checkout and integrated WhatsApp API for automated invoice sharing, reducing billing time by 40% and errors by 95%.
- Used AWS S3 to store invoices and records securely, enabling cloud backup and cross-device access.
- **Skills:** Android, Java, AWS S3, SQLite, Data Visualization, WhatsApp API, UI/UX Design.

PROJECTS

Cricket Metrics | [GitHub](#) | [Website](#)

- Built a Shiny app cricket analytics dashboard to visualize performance from 150,000+ data points.
- Simulated live match data using APIs and integrated the output with a Quarto-based interactive frontend.
- Designed and implemented data visualizations, including line charts, bar charts, donut charts, and map plots, to provide insights into player performance, scoring trends, partnerships, and bowling economy rates.
- Built APIs for batting, bowling, and partnerships to support live match analysis and updates.
- **Skills:** R, Shiny, Quarto, Data Visualization, Cricket Analytics, API Integration, ggplot2, Dashboard Design.

Psychometric Analysis | [GitHub](#) | [Website](#)

- Analyzed data on 890 fictional characters across 100 universes using the Open-Source Psychometrics Project.
- Merged traits, MBTI types, and psychometric scores to study personality and character notability
- Visualized results using bar charts, density plots, and radar charts to highlight audience engagement trends
- Analyzed links between traits and Myers-Briggs types, revealing patterns in likability and audience perception of fictional characters.
- **Skills:** R, Data Analysis, Data Visualization, Matplotlib, Seaborn, ggplot2, Dashboard Design

TECHNICAL SKILLS

Languages: Python, Java, C/C++, MySQL, MongoDB, JavaScript, Node.js, HTML/CSS, R/R-Shiny

Web Technologies: Angular, React, Spring Boot, JWT, Spring MVC, Maven, RESTful services

Development Practices: Object Oriented Programming, Microservice Architecture, Data Structures

Tools and Framework: R-Studio, Jupyter Notebook, VS Code, Git, GitHub, TensorFlow, Transformers, Docker

Certifications: Amazon Web Services Certified Cloud Practitioner | [Credentials](#)
